

MIBRASA®

The Craftsmen of Fire!

MIBRASA® Catalogue

Supplied by  JESTIC
FOODSERVICE SOLUTIONS

Mibrasa's Mediterranean roots

Territory

Cooking over fire is deeply rooted in Mediterranean gastronomy. From our Palamós workshop in the heart of the Costa Brava in Spain, where we produce the finest Mibrasa equipment to serve our clients all over the world, we are proud to be the Craftsmen of Fire.

*Water, Earth, Air, FIRE.
In the unique surroundings
of the Costa Brava and
its exquisite gastronomy,
Mibrasa® was born,
and became the original
Craftsmen of Fire.*

Tradition

The relationship between food and fire brings us back to the deepest origins of gastronomy and of mankind. Cooking over fire is a practice that is sincere, honest, and above all allows for the authentic flavors to speak for themselves.

Craftsmanship

We are a young, family-run company that places emphasis on quality and robustness so our grills are made to last. Using forefront-engineering techniques and steels of the highest quality, we work to achieve maximum precision in every detail, resulting in a product that is superior in performance and versatility.

*The synthesis of quality and
experience is encapsulated
into each and every
Mibrasa® product.*

The Craftsmen of Fire!

combination of quality & experience

Quality and experience

The synthesis of quality and experience is encapsulated in each and every Mibrasa® product. We work hand in hand with chefs, putting ourselves in their shoes to develop products that meet their every demand.

The art of wielding fire is no easy feat, and here at Mibrasa® we never underestimate its power. We continue to develop our craftsmanship to achieve the highest quality products for today and tomorrow.

*Innovation
from the chef's
perspective*

Clients worldwide

Chefs around the world choose Mibrasa® for its robustness, ease of use and zero maintenance. Mibrasa® grills are built with functional and ergonomic features to make time-pressured services run smoothly and problem-free.

*We invite you to experience
Mibrasa® grill cooking for
yourselves. Cook and create
in a way that awakens your
taste buds and reminds us
of the beauty in simplicity.*

Viviana Varese - Faak 📍 Milano (Italy)
Lucía Freitas - A Tafona* 📍 Santiago de Compostela (Spain)

*Backed by clients and
partners in more than 70
countries worldwide.*

Divinum* 📍 Girona (Spain)

*Built like a tank.
Engineered to last.*

Mibrasa® Oven

FUNCTIONAL AND ERGONOMIC.

Chefs around the world choose Mibrasa® for its robustness, ease of use and zero maintenance. The Mibrasa® oven's functional and ergonomic features make time-pressured services run smoothly and problem-free.

Fueled solely by charcoal
to optimize consumption

Cook all types of food
to bring out deep rich flavors

Fire protection system with firebreak and integrated dissipating filter

DOUBLE FUNCTIONALITY. Acting as a filter to the smoke outlet, it collects ash and solid particles, keeping the oven safe and under control. It then dissipates the smoke and cools down the temperature through the air louvers.

OPTIMIZED SPACE. Engineered to be extra compact, sitting tightly at the back of the oven so you get more heating rack surface area.

EASY MAINTENANCE & CLEANING. With easily removable components that are dishwasher-friendly.

Multifunctional ash collector

OPTIMIZED FUNCTIONS. The lower drawer acts as a second damper, ash collector and chamber for ancestral cooking techniques.

FAST AIR ENTRY. Ashes fall from the charcoal grid directly into the collector below, so it is obstruction free and in turn offers continuous airflow and an extra air boost if needed.

CLEAN WORKSPACE thanks to the enclosed ash collector coupled with a removable grease collector integrated on the front.

Safe and accurate airflow control

ERGONOMIC AIRFLOW REGULATOR. The top and lower dampers are located on the robust steel frame on the front of the oven for easy handling and within safe reach for the chef.

INFINITE CONTROL for instant precision and accuracy to regulate air flow.

INCREASED TEMPERATURE AND FLAME CONTROL. The damper system effectively controls temperature and airflow to create a flameless environment.

Heavy duty counter- balance door

HEAVY-DUTY DOOR. Creating a heat-free kitchen environment for the chef.

EFFORTLESS DOOR OPENING SYSTEM. The patented counter-balance design makes door handling easy during every service.

ZERO MAINTENANCE. The totally mechanical system requires zero maintenance and fewer spare parts to ensure a smooth service.

Mibrasa® Oven range

GRILL AND OVEN IN ONE SINGLE MACHINE.

Every Mibrasa® oven has been designed with the chef's needs in mind to adapt to any kitchen space.

Mibrasa® Parrilla

A KITCHEN WITH AN OPEN GRILL IS A KITCHEN WITH CANDOR.

Designed and built using cutting-edge engineering while respecting the purest and simplest ancestral culinary techniques.

With a state of the art elevating system suspending its extensive cooking surface over open fire, the Mibrasa® Parrilla offers maximum versatility.

Multicooking surfaces

HOLD AND KEEP INGREDIENTS WARM over the heating racks by making use of the residual heat from the coals.

UNIQUE VERTICAL COOKING RESULTS. Position the vertical cooking rack over the coals. Hang ingredients with the swivel hooks to achieve unique smoky flavors.

SUSPENDED COOKING with the adjustable cooking rack module at mid height to cook, rest and finish cooking processes with grillware or Mibrasa® kitchenware.

Refractory base

FUELED BY CHARCOAL OR FIREWOOD. The refractory base allows us to combine charcoal and firewood to enhance the cooking experience and deliver flame-kissed food like no other.

MAXIMUM HEAT EFFICIENCY. The hearth lined with refractory bricks is designed to efficiently harness thermal energy.

EASY CLEANING AND MAINTENANCE. In the same burning pit, scoop out the ashes at the end of every service.

Built-in cooling system in the body

Cook with maximum versatility and functionality

ABSOLUTE CONTROL FOR OPTIMAL COOKING. The elevating system allows you to control the grill over the coals to vary your cooking techniques and obtain the optimal result.

EXTENSIVE COOKING SURFACE. Cook multiple products simultaneously with up to 3 cooking grills on one machine and two cooking surfaces; rod bar and V-shape.

ELEVATING SYSTEM WITH STAINLESS STEEL DOUBLE CHAIN AND ZERO MAINTENANCE. The double chain system coupled with the crank wheel and gearbox allow us to raise the grill smoothly and with precision.

MAXIMUM SAFETY FOR THE CHEF. Residual heat transmitted from the hearth to the exterior is cooled down via the ventilation circuit built into the walls.

HEAT INSULATION AROUND THE BURNING PIT. The design and build quality ensures heat is retained within the walls and the burning area, offering the possibility of installation over refrigeration or any other work surface.

Mibrasa® Parrilla range

MAXIMUM VERSATILITY AND FUNCTIONALITY.

Built using quality steels providing strength and durability; ergonomically designed for practicality and ease of use.

Rotisserie Elipse

THE MOST PRODUCTIVE AND ROBUST CHARCOAL ROTISSERIE FOR THE HOSPITALITY AND CATERING SECTOR.

Up to 210 chickens
in one service

Advanced engineering features for the best rotary cooking results

ORBITAL ROTATION. Thanks to the orbital movement of the spits, the total cooking area is maximized, which in turn allows the product to stay in contact with the burning area for a longer period of time. This guarantees a constant internal temperature of the product for the perfect result.

INVERSE ROTATION. Between the spits, each rotates in opposite directions to avoid large pieces coming into contact and breaking.

Heat efficiency and unmistakable flavors

REFRACTORY WALL. Guarantees maximum heat retention and harnesses the heat generated from charcoal or firewood.

UNIQUE FLAVOR NUANCE. Combine charcoal and firewood to enhance and bring out the natural flavors of the product.

**SAFE WORKING ENVIRONMENT
REDUCING IMPACT OF HEAT.** Thanks to the vitroceramic glass window, most of the heat from the burning chamber is retained while at the same time reduces the impact of heat on the user.

Rotisserie Elipse

CHARCOAL ROTISSERIE

The Mibrasa® Elipse offers uniform cooking, yielding higher and faster productions.

ELIPSE

Ventilation solutions

SUPRAVENT

Industrial Ventilation

VENTILATION SOLUTIONS FOR YOUR MIBRASA® GRILL.

SupraVent® has created the Ignis series, exhaust hoods specifically designed for Mibrasa® grill equipment. These cooking appliances run on solid fuels such as charcoal or fire wood and consequently generate significant temperatures and higher levels of grease, ash and combustion residue. The Ignis series provides custom sized solutions for Mibrasa® Charcoal Ovens, Parrilla and Robotayaki grills to deliver safe and effective extraction.

The hoods are manufactured from fully welded and polished 1 mm and 1.5 mm AISI 304 stainless steel. All sides and profiles are finished with smoothed rounded edges to render an elegant design that allows for easy cleaning and maintenance.

SupraVent® exhaust hoods are the result of decades of experience in filtration systems for large commercial kitchens. Offering specialized ventilation solutions for our grill equipment to ensure the safest and most comfortable workplace.
